

Event Idea

1. Workshop:-

Conduct a brief workshop on parallel computing concepts.

Provide detailed information about Innovac's events.

Release a set of challenging problems related to real-world applications that can benefit from parallelization (e.g., image processing, simulations, data analysis).

2. Innovac Events:-

Technical Events:

- Parallel Computing Workshop
- IOT Workshop
- Project Exhibition
- Coding Hackathon

NonTechnical/Fun Events:

- Scavenger Hunt
- Treasure Hunt
- Drawing workshop
- Photoshoot
- Esport

3. Presentation

Each team presents their work in specific events to the judges and the audience.

Judges evaluate presentations based on clarity, depth of understanding, and innovation.

4. Feedback:-

Asks participants for feedback about events that how's our event and how we can improve more .

Venue

Choosing venues with spacious and well-equipped meeting rooms for workshops, presentations, and collaborative sessions.

The room should have proper sitting arrangement ,audio connection.

Budget

For distributing a prizes and certificate to the participants. All The members of a club can contribute or we can also make a criteria as entry fee for joining an events.

People Needed

For conducting an events we can invite

staff advisory
club president
Volunteer

Publicity

publicizing our parallel computing club events is essential to attract participants, create awareness, and build a strong community.

Here some idea's to to create publicity

Social media
posters in high traffic areas like mess,shops etc.
Cards on mess tables.

Vision

By the end of the event participants should have a deeper understanding of Parallel Computing, and new innovative minds get recognition and motivation to do something in field of Parallel Computing.
